THE AUGUST MEETING WILL BE CANCELED DUE TO SCHEDULING CONFLICTS!!!!

Harrisville Community Days

On Saturday, July 1, a great time was had by all at the annual Harrisville Community Days. This annual event celebrates Independence Day with community pride and great food! Between the steak hoagies and arts and crafts, a Slippery Rock Watershed Coalition informational poster was manned by Will Taylor. The poster described the Coalition's many efforts within the watershed and was met with much interest by local community members. The DeSale Restoration Area and the latest volunteer wetland planting day were featured on the poster. Of particular interest was a map that outlines the watershed study area and describes the Coalition's many restoration projects. Over 100 interested people visited the poster and spoke with Will. Coalition information sheets and hats were given out while supplies lasted, which, unfortunately, was not very long. An impressive display of fireworks concluded a worthwhile and enjoyable day. Thank you Borough of Harrisville! **(Sporting fashionable SWRC hats, Michael and Melissa Kay, Jason Texter, and Andrea Schuster take a break from funnel cakes and games to visit the Slippery Rock Watershed Coalition poster.)**
